Ver.7.0.7

ID	Product	Component	Summary
34340	RTE	Core	In the previous curl version app, virtualization of file does not work.

Ver.7.0.6

ID	Product	Component	Summary
32854	RTE	Stdlib	Support HttpOnly on HTTP cookies
33167	RTE	GUI	cannot input SHIFT + normal-key into Cell of RecordGrid if row is selected
33361	RTE	GUI	orientation and tray doesn't work for page-setup-dialog from 6.0.5
33615	RTE	GUI	NullDereferenceException on double-clicking empty space in ListBox
33929	RTE	GUI	Scrolling a RecordGrid can leave a row collapsed
34115	RTE	Core	On Windows7 and Vista, "persistent data" will be cleared even if the repository is not expired due to last-access-time issue.
34124	RTE	Core	Windows 8 64bit: Application Error is displayed when shutting down OS
34145	RTE	Core	If HttpCookie.value is empty, '=' is not added in POST data.

Ver.7.0.4

ID	Product	Component	Summary
28954	RTE	Core	Certificate validation failure should give better error message
29606	RTE	Core	Timed out while spawning a Process
30842	RTE	Install	experimental LAB 7.0 installers silently fail over official 7.0 RTE
32242	RTE	Stdlib	DataTCPSocket.connect to multi-address hostname can loop
32313	RTE	Core	"win32:65001" CharEncoding on Vista and Win7 breaks when feed partial characters
32314	RTE	Stdlib	percent encoded data in curl:// URLs in IE get garbled
32457	RTE	Core	Classes with field initializers have breakpoint problems
32458	RTE	Core	IDE cache files can only be used by privileged processes
32693	RTE	Core	Surge deadlocks attempting to run multiple debuggable applets
32858	RTE	Stdlib	HTTP for curl-license-5.dat from unprivileged applet never tries other addresses for a web server
32940	RTE	Install	IE warning dialog about surge-do.exe still can come up after install

32950	RTE	GUI	When a long String (more than 1024 characters) is input to TextField, the display is strange.
30554	CDE	CDE	Search - find definitions on a local variable doesn't work
32409	CDE	CDE	Class browser - Showing a binding in class browser is inaccurate - Uses name instead of tag
32471	CDE	CDE	VLE- possible corruption of VLE when checkin out
32511	CDE	CDE	Eclipse dies during install when applets are running
32565	CDE	CDE	Editor - find occurrences matches position wrong just after an update
32568	CDE	CDE	Debugger - Breakpoints- toggling breakpoints in out-of-workspace file may fail
32599	CDE	CDE	Eclipse wedges during CDE update
32721	CDE	CDE	crash while bringing up Eclipse
32787	CDE	CDE	Editor - isEditorActive() is buggy hence model events are unnoticed
32804	CDE	CDE	Editor - Override indicator: indicator not refreshed in some cases
32812	CDE	CDE	Editor - Override indicator - Indicator not displayed on initial open of editor
32844	CDE	CDE	Editor - Friendlier heuristics is needed to find a "word" at the cursor
32855	CDE	CDE	Refactor - rename - Error happens when rename MyContainer in start.curl
32876	CDE	CDE	Run To Line- Exception occur when Run to Line is executed
32878	CDE	CDE	Refactor - rename - Explicit import causes incorrect error detection
32894	CDE	CDE	Upgrade fails because iecontrol.dll is locked
32902	CDE	CDE	New Source File Dialog - "Add an include for this file to the package" silently fails if a package cannot be found
32903	CDE	CDE	New Source File Dialog - "Add an include for this file to the package" does not work for lined files
32933	CDE	CDE	Copyright of IBM Corporation remains with the Java source and the properties file
32948	CDE	CDE	Curl IDE Internal Error (Eclipse frozen) after double-click a VLE file.
32988	CDE	CDE	synchronization problem between CDE and VLE if run project with unsaved change in VLE.

ID	Comp	Summary
31288	Documentation	CDE documentation - "Source Menu" is not listed on the "Menus and Actions" page
31304	Documentation	documented key bindings for Open Curl Definition
31308	Documentation	Eclipse docs need to be updated for New Project dialog
31311	Documentation	fix discussion of syntax coloring in Eclipse doc
31444	Documentation	add index entry for strike-through
31458	Documentation	Most of the links in Breakpoints link to "Topic Not Found"
31670	Documentation	Description in Debugger section of Control Panel should warn against c:, etc.
31709	Documentation	Library location should also take absolute url
32004	Documentation	Curl icon for "search match " is missing
32271	Documentation	Documentation of icons in cde2 is wrong
32290	Documentation	Documenting Libraries documentation is insufficient
32343	Documentation	Help - There are some screenshots need to change in CDE Curl help doc. - partial fix
32405	Documentation	"Installed Libraries" in Function for Manage Libraries is inappropriate in doc.
25020	Graphics	Linux: Renderer2d.render-ellipse and render-elliptic-path misbehave under axis inverting scale
30483	Graphics	abort from system lib on Linux in curl script that prints to a file
30716	Graphics	Some pixel conversions may be unexpectedly dynamically compiled
31076	Graphics	Printing embedded page in firefox doesn't work with 7.0
31102	Graphics	Shapes don't fire enter/leave events when they are moved
31604	Graphics	libtiff 3.9.0 has security fixes in it, need to update from 3.8.2
32081	Graphics	Unexpected BlitException when Windows 7 awakes
26978	GUI	doc string needs font specification for character in KeyPressMatcher.description
27902	GUI	Curl throws exception for showing a bmp file while other apps don't
30249	GUI	API viewer doesn't show return types of text procs or text formats
30315	GUI	Missing doc strings for Splash Screen API
30436	GUI	RichTextArea cursor blinking in a partially shown line

31281	GUI	calling choose-file results in GetOpenFileName error.
31503	GUI	AdjustmentFinished events not always fired for Scrollbar arrows
31553	GUI	Only get URL of the image after copying a BMP image from a HTML file in IE7 and above
31560	GUI	Fatal error happens after delete the .fon files in local folder.
31570	GUI	Skinned horizontal TabAccordion/MultiTabAccordion puts a single tabpane in center
31595	GUI	background of dropdown list is no longer white
31616	GUI	ComboBox can influence other controls' "input-method-focus-behavior"
31819	GUI	Mac: event works bad when switch from top level Curl window to child window
31821	GUI	Improved security when calling EmbeddedBrowserGraphic where unprivileged applets can get events
31855	GUI	SkinnedScrollbar's arrow-placement looks bad when it's together-min/max
31902	GUI	StandardComboBoxUI doesn't properly receive FocusOut
31961	GUI	Renderer3d.render-glyph-2d appears to support code-is-glyph-index?
31969	GUI	url with multi-byte character cannot be browsed correctly with EmbeddedBrowserGraphic
32021	GUI	With ATOK IME, composition window appears at upper left of applet
32080	GUI	Problem with equals in RichTextArea.format-as-curl-source-fragment
32240	GUI	RecordSort.sort-sequence should better preserve equal orderings
32261	GUI	cannot traverse backwards out of RecordGrid with selection+select-current-record?=false
32266	GUI	RecordView.get-index default implementation has always been wrong
29916	Install	cannot completely uninstall with 7.0 RTE and 6.0 IDE/RTE
31599	Install	linux install: add plugin links for xulrunner too
32132	Install	Windows 7 right click on Curl entry in taskbar and select Curl gives error
31728	Plugin	iexplore.exe application error when closing window with two tabs
31737	Plugin	Safari 4 on MS Windows has problems when dragging applet tabs across windows
31810	Plugin	Mac: Cannot load Curl in Safari 2.0.x on Mac OS X 10.4.x with 7.0.1+.
31945	Plugin	View source not working on IE 8 with curl applet loaded
31793	Stdlib	If Chrome is default browser and other browser running pages can launch in wrong browser
31800	Translation	translation for define-alias is wrong.

31928	Translation	Translation of viewer is different between tools submenu and help docs.
32331	Translation	Japanese doc for Run menu in CDE help should be consummated.
32359	Translation	Translation of "Configure Editors" should be consistent.
30209	UDV	Doc system does not distinguish different types of macros
31296	UDV	nonfunctional doc sets listed in UDV
31387	UDV	documentation fails when class inherits from class that is not in a directly delegate-to'ed library
31063	VLE	customer requests better support for design-time appearance for style or look-and-feel
31750	VLE	VLE File > New… dialog does not use project style sheet settings

Ver.7.0.2

ID	Comp	Summary
31409	Build	coverage builds do not work due to Pro IDE problem
31528	Classic IDE	new applet files getting style sheet settings either for unskinned look
28068	Core	checkmark in debuggable column in Applet Manager does not invert when selected
31161	Core	kendall/trunk not working with OS X 10.5.7
30491	Graphics	Too small chart causes {calculate-tick-spacing} to return an invalid number of ticks (one)
30731	Graphics	Image shows badly after copied from HTML page in google chrome
31347	Graphics	trouble with rendering surface after floating IDE editor window
27930	GUI	Mac: Scrolling trackpad doesn't work with Firefox
28860	GUI	Mac: Undo accel key doesn't work on Safari (NOTE: duplicate of 30187)
29470	GUI	Undo gives wrong result with delete/backspace combinations
30187	GUI	Mac: Edit commands/accelerators don't work in Firefox
30503	GUI	Fix RichTextStringDataModel.get-attribute docstring
30559	GUI	Mac: Can not highlight text with Shift + right/down arrow key in PasswordField.
30620	GUI	StandardStringCell can discard pending values under fast, heavy updates
30740	GUI	Mac:Two problems about undo on text control objects.
30783	GUI	The caret jumps to the next line after double clicking at the end of a line in TextArea and RichTextArea.

30936	GUI	Menu scroll button is disabled after the second time you set few items less than one page.
31179	GUI	mac builds failing for kendall/trunk
31238	GUI	Problem about letter navigation in DropdownList and ComboBox.
31283	GUI	In 7.0 ComboBox, the KeyPress event doesn't fire.
31337	GUI	Some new-for-6.0 docstrings for VBox confusing
31340	GUI	Skinnable TextDisplay.halign has no effect by default
31396	GUI	Minor performance/correctness issues with SkinSpecProxy's
31501	GUI	Mouse scrolling is broken in kendall/trunk
31552	GUI	Final RecordGrid column lacks grid line on right
31616	GUI	ComboBox can influence other controls' "input-method-focus-behavior"
31651	GUI	Typo in DropdownList.data-model
31810	Plugin	Mac: Cannot load Curl in Safari 2.0.x on Mac OS X 10.4.x with 7.0.1+.
31344	Security	Port number not handled by TrustPreferences
31226	Tests	Skin for GroupBox looks different on Linux.
31063	VLE	customer requests better support for design-time appearance for style or look-and-feel
31750	VLE	VLE File > New… dialog does not use project style sheet settings

Ver.7.0.1

ID	Comp	Summary
26644	GUI	Mac: Safari has weird middle-click logic
26764	Graphics	Mac:Some keys in keyboard can't work when the keyboard is German Thai French etc.
28223	GUI	MAC: The Japanese characters in the ComboBox leaves while changing focus during typing.
28421	Stdlib	Mac: RTE crashes when loading Curl applet via http on Mac OS 10.5
28661	GUI	Mac: In Safari, Applet do not get any KeyPress when the Command Key is pressed
28716	GUI	Unexpected Xlib error happens when shutting down Turbolinux 10.
28750	GUI	Selecting the same datefield value makes the dropdown calendar stay open
28890	GUI	Internal error happens when print find dialog in CDE.
28903	CDE	ArrayBoundsException when opening *.curlcov file in Coverage Viewer

29190	GUI	problems with choose-* docstrings for default-location keyword
29261	GUI	page-setup-dialog has some problems
29506	GUI	assertion failure when user code closes dialog with DropdownList or MenuBar open
29562	GUI	Mac: PPC - IME doesn't work on Safari 3.1.2
29738	GUI	Mac: Firefox 3.0.1's resizing function is disabled when displaying Curl content
30026	GUI	Mac: IME is broken in Safari
30108	Install	Panic abort when occ install-icons are missing
30369	GUI	Down arrow of down arrow button of skinned SpinControl looks not good.
30402	Tests	Clone for canvas works bad when complete-clone-required? is set to false with recent 7.0.
30409	Graphics	applets don't go away when changing tabs in Safari 4 Beta
30410	GUI	[TabContainer]:clicking the CommandButton can not close the DropdownList.
30430	Graphics	droppings of cruft in demo using EllipseShape
30434	GUI	text-underline? and text-line-through? do not work for header of SkinnableTabContainer
30454	Compiler	complete enum switch should not require 'else' clause
30519	CPA	CPA does not report missing open/close curly errors
30527	GUI	doc string for Command/Check/RadioButton should mention style-element depends on style
30539	GUI	set-graphic for MenuSeparator does not work.
30543	Documentation	May change things about control-color both in Documentation and VLE.
30560	Documentation	MissingFileException when click a link in [Control](class) page of in Japanese Documentation.
30591	GUI	Can't select text immediately after it is dragged and dropped in ComboBox.
30606	GUI	In ComboBox, can not redo and undo the entire sequence as a unit.
30619	GUI	AquaComboBoxFeel causes incorrect value from ComboBox.selection.get-text
30621	GUI	Strange behavior when changing distinguish-unset-attributes? and pressing enter in RichTextArea.
30663	GUI	Characters can still be dropped and deleted when editable?=false in ComboBox.
30706	GUI	Mac - Keyboard arrow keys register differently on Safari
30731	Graphics	Image shows badly after copied from HTML page in google chrome
30746	Graphics	AppletGraphic should document its use of a new host window

30758	Translation	Japanese translation problem happens on CDE Help window.
30773	Core	UNC paths break run-host-shell
30790	GUI	EmbeddedBrowserGraphic breaks with IE 5.0 and 5.5
30795	GUI	copyright not added to files in outboard source zip
30797	Documentation	PIM example throws error
30809	GUI	MenuPane.show-adjacent has a 1 pixel problem
30811	GUI	TabContainers have spurious dropdown at default size
30812	Documentation	Cryptic notes at end of Regular Expressions section of dguide
30817	Documentation	a few missing licensing clauses
30819	GUI	Input Japanese word after highlight a value in ComboBox causes exception.
30905	Documentation	skin-orientation doc string doesn't give allowed values
30929	GUI	DateField.get-parsed-value documented return-vals are wrong
30930	GUI	ImageDragee rgression, when a drag image is provided
30937	GUI	Mac:pressing Ctrl+right or left key in ComboBox doesn't work well.
30941	GUI	no ValueChanged when entering two-byte characters in ComboBox
30958	VLE	VLE runtime package uses local options incorrectly
30982	GUI	Some controls incorrectly provide default values for local options
30994	Compiler	hygienic-equal? implementation on Identifier class hierarchy is wrong
30995	GUI	OCC splash screen doesn't get access to offline images
31008	CDE	Installer EULAs need the new address
31023	GUI	Tab order inconsistent in Canvas when no tab-index specified
31027	Stdlib	regexp: problem with double backslash at end of square bracket expression
31028	Security	curl-internal-query-code-show-occ-request-install-dialog is a big security hole
31029	GUI	Canvas.move-to-xy is broken for Shapes with a Transformation
31032	Core	RTE control panel - Privileged host name validation needs to be tweaked
31034	GUI	Clipboard.get-string works different between Windows and Linux.
31043	Graphics	Mac: Firefox 3 is unusable with Curl
31046	Security	Free license applets can't do any interesting dialogs

31061	GUI	CalendarControl may not fire a ValueFinished event
31063	VLE	customer requests better support for design-time appearance for style or look-and-feel
31075	Graphics	low-get-opengl-driver-info can crash on windows with some drivers
31111	GUI	Calling format-as-html-fragment throws ArrayBoundsException after undo
31113	Install	msi installer having trouble with ExistingFileException
31132	CDE	Debugger - Internal error in variables view (on Curl side)
31161	Core	kendall/trunk not working with OS X 10.5.7
31179	GUI	mac builds failing for kendall/trunk
31180	GUI	StandardRecordGridUI column drag resizes abnormally
31198	Security	run-bzip2 is a big security hole in CURL.IO.PACK
31238	GUI	Problem about letter navigation in DropdownList and ComboBox.
31240	GUI	Mac:Change Safari's tab after merging two applets to one window will close the browser.
31258	GUI	Something changed in Menus that makes eyeDecide demo look bad
